

FREE Radon Test Kits

Radon is an odorless, invisible, radioactive gas. Exposure to radon over time can cause lung cancer. Testing is the only way to determine if your home has high radon levels. Protect you and your loved ones from radon by testing your home.

FREE radon test kits are available on a first come first serve basis. Residents of Watchung can pick up their test kit at the Watchung Borough Municipal Building: 15 Mountain Blvd, Watchung, NJ 07069.

Pick up a test kit and test your home for radon today! For more information, **call** the Middle-Brook Regional Health Commission at **732-968-5151**.

To learn more about radon, **visit: [epa.gov/radon](https://www.epa.gov/radon)**
